

# R-WB735PT5

650lt 4 Door French Door INVERTER Refrigerator

## LARGE FRENCH DOOR SERIES

### Features

- 650lt Capacity
- 4 Door French Door
- INVERTER refrigerator
- Only 357kWh per year power consumption
- Warranty: 5 Year Parts & Labour Warranty (Additional 5 Years Parts Warranty on the Inverter Compressor)
- VIP Insulation
- LED Lighting
- Tempered Glass Shelves
- Touch Screen Controls
- Dual Fan System to cool fridge & freezer independently
- Smooth Gliding Smart Vegetable Compartment
- Eco-Thermo Sensor (to monitor usage)
- Nano Titanium Technology
- Mould proof Door Gasket
- Aero Care Vegetable Compartment
- No Frost | CFC & HFC-Free
- Open Assist Vegetable Draw
- Movable Twist Ice Tray

### INVERTER x Dual Fan Cooling

### Compact High Power Inverter Compressor

The high-precision, high-durability inverter compressor finely adjusts cooling power over a wide range from high to low. Unlike a conventional compressor that cools only by switching a fixed power on or off, the inverter compressor is capable of providing exceptionally powerful cooling by generating a large volume of chilled air, while also providing efficient low power cooling. Depending on conditions inside and outside the refrigerator detected by the Eco Thermo Sensor and with microcomputer control, it provides optimum cooling power at all times.

### Dual Fan Cooling – Dedicated Fans

Two dedicated fans, one for the refrigerator compartment, the other for the freezer, independently cool the compartments. So according to conditions, chilled air can be delivered only to the refrigerator compartment, only to the freezer, or to both, which is impossible with conventional refrigerators that have only one fan. What's more, the fans adjust airflow to provide even more powerful and efficient cooling when required.

### Eco Thermo Sensor Control

Hitachi's Eco Thermo Sensor detects temperature changes inside the refrigerator, and then the microcomputer provides optimum cooling for efficient operation at all times.

### Vacuum Insulation Panel

### Highest Level of Heat Insulation

Glass Fiber about 4µm

R-WB735PT5GBK Glass Black

R-WB735PT5XGR Gradient Grey

## Easy to Twist Ice Dispenser

The conveniently located lever lets you easily twist for ice

## Bright, Energy Saving LED Light

Refrigerator compartment features LED lighting that lasts a long time and consumes much less energy than conventional lamp.

## Tempered Glass Shelves

As well as offering an elegant appearance, these shelves are scratch-proof, heat-resistant and they prevent spills. What's more, each one of them can hold up to 100kg.\*5

\*5 Weight resistance of Tempered Glass.

## Refrigerator Message Board

Write messages where they are sure to be read. The glass door doubles as a message board or shopping list. With standard window glass markers your Hitachi fridge will be a communication hub.

## Nano Titanium

Nano Titanium is a cutting edge technology that uses a TiO<sub>2</sub> catalyst to provide a powerful antibacterial, anti-mold and deodorizing effect. It's also maintenance-free and requires no extra energy.

## Platinum Catalyst

Generates CO<sub>2</sub>

## Airtight Structure

Holds CO<sub>2</sub>

## Humidity Controller

Maintains perfect humidity without condensation

## Aero-care Vege Compartment

A platinum catalyst maintains a high concentration of carbon dioxide in the compartment. This large vegetable compartment keeps items fresher for longer.

## Open-Assist Handle

The open-assist handle enables opening with little effort even when a lot of items are stored and the compartment is heavy.

Dimensions 1835(h) x 860(w) x 808(d) mm  
650L

Space required for ventilation.
