

R-WX620KA

615Ltr* Black or White Glass finish INVERTER Refrigerator

MADE IN JAPAN SERIES

Features

- 615ltr* Capacity
- Multi Drawer French Door INVERTER refrigerator
- Only 400kWh per year power consumption
- Warranty: 5 Year Parts & Labour Warranty (Additional 5 Years Parts Warranty on the Inverter Compressor)
- Vacuum Compartment with Platinum Catalyst
- Auto Open Drawers (Lower Freezer Compartment and Vegetable Compartment)
- On Glass Controls
- Energy Saving Mode
- Delicious Freezing - Quick Freeze Drawer
- Aero-Care Vege Compartment with Platinum Catalyst
- Hitachi Original Flexible Vacuum Insulation Panel for large capacity and energy saving performance
- Sensor Cooling & Spot Powerful Cooling
- Multiple storage compartments for Fresh and Frozen Foods
- Auto Ice Maker
- Black or White Scratch-Resistant Tempered Glass
- Triple Power Deodorisation

R-WX620KAXW in White Glass (also available in Black Glass).

Dimensions: 1,833(h) x 750(w) x 738 mm(d)

*This fridge are certified to AS/NZ IEC 62552-3.

Vacuum Compartment with Platinum Catalyst

Hitachi's uniquely designed Vacuum Compartment uses a vacuum pump to extract air and reduce oxygen to suppress oxidation, thus ensuring freshness of food while retaining its nutrients. Furthermore, the airtight structure of the compartment confines moisture inside, helping to prevent food dehydration. Seasoning is absorbed at a faster rate to assist in speedier food preparation.

Platinum Catalyst

Odour components from meat and fish are broken down by the Platinum Catalyst to generate carbon dioxide. The carbon dioxide dissolves in water on the surface of food items to make the surface weakly acidic, suppressing enzyme strength to minimize freshness loss.

R-WX620KAXW

On Glass Controls

Touch the MENU button and the control panel display appears on the door, so you can control settings without having to open the door.

Easy-to-Open Auto Drawers

Easy-to-Open Auto Drawer (Vegetable & Freezer Drawers). The drawer slides out effortlessly even if it's full of items and heavy.

Delicious Freezing - Quick Freeze Drawer

Delicious Freezing process reduces the time food takes to be frozen. Ice crystal formation is reduced and moisture retained.

Vacuum Insulation Panel

Vacuum Insulation for maximised Efficiency

Easy Access Storage Drawers

Platinum Catalyst's Freshness Preservation

Ethylene gas released by vegetables can spoil their freshness. Platinum catalyst technology has the ability to decompose the ethylene gas and convert it into carbon dioxide gas, delaying spoilage by making vegetables dormant to preserve freshness.

Sensor Cooling & Spot Powerful Cooling

With Sensor Cooling the lower 2 shelves can be set at approx. 2°C, which is lower than the regular refrigerator temperature. The sensor detects temperature changes and adjusts the cooling power to maintain the 2°C temperature in the right lower compartment.

Use Spot Powerful Cooling for quick cooling One-Touch Operation to save you time.
